1.6 Animals

Permit any dog or other pet to be kept in or about the property which dog or other pet is likely to cause a nuisance or annoyance to other neighbouring occupiers or detract from the subdivision, and in particular, without otherwise limiting this restriction, not to keep on or about the property any dog which in whole or part appears to be a Pit Bull Terrier, Rottweiler, Japanese Akita, Japanese Tosa, Dogo Argentino or Brazilian Fila. Erect on any of Lots, **except for Lots 318 to 320, 334, 335, and 402**, a dwelling greater in height than a single storey. The Grantee may, at the Grantee's sole discretion, approve plans with living areas situated within the roof cavity of the dwelling provided that there are no windows set into the roofline or gable area and that the only natural light permitted into the roof cavity is from skylights. Any such dwelling shall not be deemed to be in breach of this clause by virtue of its having a living area situated within the roof cavity.

1.11 New Materials

Erect or permit to be erected on the Lot any building using anything other than new materials PROVIDED THAT second-hand bricks may be allowed for exterior cladding at the Grantee's discretion. No pre-lived in or pre-built dwelling shall be transported on to the Lot.

Preferred building materials are detailed in the Grantee's Design Guidelines.

1.15 Fencing Materials

Erect or permit to be erected on the land any fence or boundary wall of any material containing cement board sheets or panels, corrugated iron, or metal sheeting.

1.16 Boundary Fencing – Road Frontage Setbacks

a) Interpretation

“Maximum Length” means 50% of the length of the Road Boundary, except in relation to Lot 320 where it shall mean 60% of the length of the Road Boundary, or at the sole discretion of the Developer any other length it deems acceptable to achieve the desired neighbourhood scene.

“Road Boundary” means a boundary between a Lot and any legal road

“Side Boundary” means a boundary between a lot and an adjoining lot that is not a Road Boundary

“Total Length” means the total length of the fence taken in a line parallel to the road

“Transparent” means able to be seen through either because no solid construction is present or because there are spaces between the elements used in the construction that are at least the same width as the elements themselves

b) Road Boundary Fencing – **Lots 306 to 316, 318, 319, 321, 334, 335, 341, 344, 398 to 401, and 403 :**

The Grantor shall not permit any fence or other structure (other than a letterbox, and any decorative metal fence referred to in clause 1.9(a)) to be erected in the area between the Road Boundary and a line drawn parallel to the Road Boundary, with the distance between such line and the Road Boundary being determined by those parts of the dwelling closest to the Road Boundary.

c) Road Boundary Fencing – **Lots 320 and 402:**

The Grantor shall not permit any fence or other structure (other than a letterbox) to be erected in the area between the Road Boundary and a line

drawn parallel to the Road Boundary, with the distance between such line and the Road Boundary being determined by those parts of the dwelling closest to the Road Boundary PROVIDED HOWEVER, that in recognition of the larger Road Boundary length of these lots, and the desirability of allowing privacy, the Grantor shall be entitled to erect a fence closer to the Road Boundary than provided above so long as the fence is erected at least 1 metre from the Road Boundary and complies with the following requirements:

- (i) The fence is constructed using primarily the same materials as the external walls of the dwelling
- (ii) The fence is no higher than 1.8 metres above finished ground level
- (iii) The Total Length of the fence does not exceed the Maximum Length. By way of illustration only, the Grantee Acknowledges that a curved fence, or a fence that is parallel to the boundary but which has a return, or is Transparent, will comply with this restriction notwithstanding that in overall length such fence may exceed the Maximum Length.
- (iv) The Developer may exempt Lots 402 and 403 being west facing road boundaries, fronting Springs Road, from clause 1.16 c) and may allow up to a 1.8 metre fence to be erected no less than 1 metre from the Springs Road boundary, up to the maximum length allowed in clause 1.16a, provided the area between the road boundary and fence is suitably landscaped. This clause shall be interpreted at the sole discretion of the Grantee.

1.17 Side Boundary Fences

- a) Permit any fence to be erected on the common Side Boundaries between any of Lots **6 to 316, 8 to 321, 334, 335, 341, to 344, and 398 to 403** and where those same lots also adjoin the future stages of the development, within 1 metre of the point where the Side Boundary meets the Road Boundary and providing the fence complies with the following requirements:
 - (i) the fence is a maximum of 1.2 metres in height within 1 metre of the point where the Side Boundary meets the Road Boundary; and
 - (ii) the fence is raked at an angle of 30 degrees until it reaches its maximum height of 1.8 metres above finished ground level.
 - (iii) Notwithstanding clauses 1.17(a) (i) & (ii) above, the common Side Boundary fences between the following Lots shall be exempt from the provisions of clauses 1.17(a) (i) & (ii): **320 & 321, 316 & 317, and 402 & 403.**
- b) Permit any fence erected on the Lot or any boundary to exceed 1.8 metres generally above finished ground level.

1.18 Letterbox

Erect a dwelling without contemporaneously erecting a new letterbox of a design, colour and cladding consistent with the dwelling or fences, or as approved by the Grantee in accordance with clause 1.22.

1.19 Completion of Landscaping, Driveways and Paths

Permit the dwelling to be occupied unless all driveways and paths are completed in permanent materials, all wooden boundary fences are stained, and all unpaved areas are properly grassed or landscaped.

1.20 Satellite Dishes / Air Conditioning Units

- a) Place or allow to be placed on the land or buildings any aerials or satellite dishes unless the same comply with the following requirements:
 - (i) have a maximum diameter of one metre; and
 - (ii) are situated at least four metres from the front facade of the dwelling; and
 - (iii) are mounted below the ridgeline of the roof.
- b) Place or allow to be placed on the land or any part of the buildings any external air conditioning unit visible from the road frontage of the Lot.

1.21 Grantee to Approve Plans

Commence any work on the property:

- a) Without submitting to the Grantee for its approval all building plans, including site plans (showing the position of the vehicle crossing, unless already fixed by the Grantee) specifications, fencing, landscaping plans and builder. Sole discretion lies with the Grantee in approving building and site plans, specifications, fencing and landscaping plans, and interpreting compliance with the Design Guidelines provided by the Grantee, to the Grantee's satisfaction in any respect.
- b) Which does not conform to the plans approved by the Grantee. Any variation to or deviation from the approved plans and Design Guidelines not approved by the Grantee will be a breach of this clause and subject to the provisions of clause 3.

PROVIDED THAT this clause 1.22 will cease to apply and be of no further effect from the date that a Code Compliance Certificate is issued for the first dwelling to be built on the Lot.

AND FURTHER PROVIDED THAT the Grantor acknowledges that the Grantee has no legal responsibility or liability for the enforcement, enforceability or applicability of these covenants, nor does the Grantee undertake to enforce or monitor compliance with these covenants on an ongoing basis.

1.22 Construction Fencing

Commence construction until temporary fencing has been erected on the entire length of all unfenced boundaries. The temporary fence must comprise removable wire or shade cloth (or other see-through material), be a minimum of 1.2 metres in

height and have a rigid frame and in all circumstances be acceptable to the Developer at their sole discretion, and provide only one vehicle access to the lot from the road or right-of-way.

1.23 Construction Zone Areas

Commence construction until a vehicle crossing of no more than four metres width has been installed in a position approved by the Grantee (unless already formed by the Grantee), the kerb cut down at the crossing and the driveway from the road to the Lot formed and suitably based, in accordance with Selwyn District Council required standards. The Grantor shall not make any use of the adjoining lots (whether occupied or not) any berms (except at designated crossings) or footpaths for construction work or for access by vehicles. The Grantor shall be responsible for any damage caused directly from the construction of the dwelling by their contractors to berms footpaths or adjoining lots.

1.24 Health and Safety Requirements

Permit any construction unless the building site complies with the requirements of the Health and Safety in Employment Act 1992 (or any Act passed in substitution).

1.25 Delivery of Materials

Undertake or permit during the course of construction the loading, unloading, delivery, or storage of building materials other than within the boundaries of the property.

1.26 Building Rubbish

Carry out any construction unless an adequate rubbish skip is present within the boundaries of the Lot at all times (and regularly emptied or replaced), nor allow during the course of construction any rubbish to blow outside the boundaries of the Lot.

1.27 Washing of Vehicles

During the course of construction allow any vehicles to be washed down other than within the boundaries of the Lot.

1.28 Portable Toilet Facility

Permit the Grantor's construction workers or contractors to use the property or any other area on the Plan for toileting purposes. Prior to construction commencing, the Grantor shall provide a suitable portable toilet facility within the boundaries of the Lot for use by the Grantor's construction workers and contractors.

2 Dispute Resolution

Except as relates to the exercise of any discretion, opinion, approval or consent requested of the Grantee under these covenants, if any dispute arises between the parties concerning the covenants, then the parties shall enter into negotiations in good faith to resolve their dispute.

If the dispute is not resolved within twenty working days of the date on which the parties began their negotiations, then the parties shall submit to the arbitration of an independent arbitrator appointed jointly by the parties. If the parties agree, that person appointed may act as an expert and not an arbitrator.

If an arbitrator cannot be agreed upon within a further ten days, then an independent arbitrator will be appointed by the President for the time being of the Canterbury Branch of the New Zealand Law Society.

Such arbitration will be determined in accordance with the Arbitration Act 1996 (and its amendments) or any enactment passed in substitution.

3 Default Provisions

If there should be any breach or non-observance of any of these covenants and without prejudice to any other liability, which the Grantor may have to any person having the benefit of this covenant, the Grantor will upon written demand being made by the Grantee or any of the registered proprietors of the lots:

- a) Pay to the person making such demand as liquidated damages the sum of \$100.00 (One Hundred Dollars) per day for every day that such breach or non-observance continues after the date upon which written demand has been made, and;
- b) Remove or cause to be removed from the land any dwelling, garage, building, fence or other structure erected or placed on the land in breach or non-observance of the above covenants, and;
- c) Replace any building materials used in breach or non-observance of the above covenants.
